To: Presidents of associations of Normande breeders

Domfront, February 4th 2020

Dear Madame President and Mister President,

You asked us about the recognition and the legitimacy of your associations. On a strictly regulatory level, the office considered that nothing prevented two associations from promoting Normande in the same territory.

You asked us about the possibility of having US animals genotyped in France. The OS Normande has given its consent to VALOGENE to process your samples. However, your orders must be carried by a member of VALOGENE (EVOLUTION or ORIGEN Normande) in order to be processed.

Listening to you,

Regards,

OS Normande President

Pascal Orvain
